

This year's World Metrology Day is dedicated to "Measurements for health", a theme meant to create awareness about the important role that measurement plays in health, and thus in the wellbeing of every one of us.

On this occasion's workshop we are thrilled to welcome colleagues from the SCIENSANO and CEN-SCK institutes, who will talk about recent metrological developments in the fields of food & nutrition and radiation dosimetry for health applications. Next, members of the Belgian Scientific (SMD) and Legal Metrology (MetReg) services will depict examples of their metrological endeavours in the service of health. The workshop will end with round table discussions about the mainstream metrological trends and future challenges.

The workshop agenda is detailed here:

10h00-10h10	Welcome & Introduction	Hugo Pirée
10h10-10h40	Preparing METRFOOD-RI: a European Research Infrastructure for high quality metrology services in food and nutrition	Karine Vandermeiren SCIENSANO
10h40-11h10	Dosimetry calibrations in support of health applications at the new Laboratory for Nuclear Calibrations of SCK-CEN	Cristian Liviu Mihailescu SCK-CEN
11h10-11h50	The Belgian scientific and legal metrology in the service of health	Miruna Dobre, SMD Noham Sebaihi, SMD Marc Wouters, MetReg
11h50-12h00	Pause	
12h00-13h00	Round-table discussions	

We look forward to your participation to this event!
